Summer Quarter Residence Choices

You are encouraged to make a robust list of choices. You should continue adding choices until you have no opinion regarding the choices you have left unranked. If we are unable to assign you to one of your listed choices, you may be assigned to **any location and to any room type**.

- If you are applying as a group with a student who has a medical accommodation or religious observance request, please know that your assignment will be driven by the needs of the student(s) who is seeking a medical accommodation and/or submitting a Religious Observance Request. Students in these groups may be assigned to different room types within a residence (for example, a student with a medical need may be assigned to a single, while their groupmates are assigned to doubles.)
- Undergraduate Summer Housing Rates **can be found on our website**. The rate reflects the housing charges for each residence option, which includes basic utilities - water, heat, electricity, garbage and sewer. Additional fees apply for dining plans, the period between spring and summer (for spring residents), the period between summer and autumn (for students selecting summer-autumn interim housing), house dues/program fees, and the technology fee.
- A dining meal plan is required for all undergraduate summer housing options.
- If you are leaving choices unranked and you indicate through your final choice that you are willing to live anywhere (required to retain your guarantee), you should be equally happy to live in any of those unranked choices. If not, you should rank them on your application.
