What's right for me?

- **Single Graduate Housing:** Available to graduate students attending Stanford without a spouse, partner, or children. Single students are assigned to a variety of single-occupancy studio apartments and shared apartments with two, three or four bedrooms. Undergraduate students who last attended high school seven or more years ago are also eligible for single graduate housing.
- **Couples without Children Housing:** Graduate and undergraduate students who are married or in a domestic partnership with a partner who will co-occupy an apartment with them at least 50% of each week are eligible to live in graduate couples housing.  
**Please Note:** A domestic partnership is defined as two adults who have chosen to share one another's lives in an intimate and committed relationship. Couples housing is not intended for friend pairs, siblings, parents, or members of a student's extended family. Undergraduates may not apply for couples housing for summer if they are currently in single student housing and are applying for single student housing for the following year.
- **Students with Children:** Graduate or undergraduate students with legally dependent children living with them at least 50 percent of each week are eligible for studios, one, two, three, or four bedroom units depending on the number of occupancy-eligible members of the family (student, child(ren) and spouse or domestic partner).  
**Please Note:** Stanford does not provide housing for extended families-including a student's parents or siblings, or live-in day care staff. If your parents or other family members are moving to the Stanford area, you must make alternate housing arrangements for them.

 **Summer Housing Priority:** Priority for summer housing is given to students enrolled in the summer quarter. However, all students are welcome to apply, regardless of enrollment status.

- **Type of Housing:** Select “Single Graduate Student”, “Couples without Children” or “Students with Children”
  - Please note: RD&E is unable to guarantee a housing assignment for students applying as, “Couples without Children” or “Students with Children” for the summer, regardless of which round they apply. Chances of a housing assignment are much better in the first round (April 2-May 1).

In order to make the housing assignment process as inclusive as possible, you are being asked to select one of three gender options.

The gender option you choose is up to you, and you will have the ability to change your gender identification annually when you apply for housing. Please note that you will not be able to change your gender for this year after the housing application deadline on **May 01, 2025**. If you have concerns about your gender identification after the application deadline has passed, please [contact Housing Assignments](#).

Currently, our records indicate that you identify as **Male**.

Please answer the following question regarding your gender identity.

I identify as...

Please select one of the following statements regarding your placement within shared accommodations.

If you selected 'None of these options work for me' in the dropdown above, please use the text box below to provide additional details about your roommate gender preferences.

We are committed to creating a supportive and inclusive living environment for all students. In most cases, students are assigned roommates who share their same gender, if that is their preference on the application. However, in some situations—such as when accommodating certain needs or preferences—students may be placed with someone of a different gender based on student demand and available vacancies. Please rest assured that we prioritize ensuring all placements are respectful and comfortable for everyone involved. If you have specific concerns or preferences, we encourage you to reach out so we can work with you to meet your needs.

### Residence Choices

**You are encouraged to make a robust list of choices.** You should continue adding choices until you have no opinion regarding the choices you have left unranked. If we are unable to assign you to one of your listed choices, you will be assigned based on your final choice.

- Apply for the residence options you prefer, in the order you want them. Descriptions and pictures are available on the [Student Housing website](#).
- Students may rank apartments in Escondido Village and/or Escondido Village South. While we always endeavor to assign students to their top choices, students assigned to Escondido Village apartments may be assigned to a similar apartment type in Escondido Village South and vice versa.
- If you leave choices unranked and indicate that you are willing to live anywhere (required to retain your guarantee), you should be equally happy to live in any unranked choice. If not, you should rank them.
- Final choice:** Munger, GSB Residences, off-campus subsidized housing (except Oak Creek), premium studios, and the EVGR Test Pilot — 2 Bed + 2 Bath triple occupancy apartments **will not** be automatically assigned through the final choice **"Yes, I am willing to accept any other assignment"**. You must specifically list them to be assigned there. Guaranteed students, who must select this final choice, are not required to list these choices in order to maintain their guarantee.
- If you only want to be considered for a limited number of options, select **"No, do not assign me if the choices I selected are not available"** as your final choice to avoid a cancellation fee.
- If you apply for autumn quarter housing in the same housing category and are assigned, we will do our best to assign you to your autumn quarter assignment beginning summer quarter. In the event we cannot do this, we will assign you based on your residence choice list.
- While you have the ability to rank off-campus housing options, it is unlikely you will be assigned off-campus for summer quarter unless you have been assigned to an off-campus residence for the upcoming autumn quarter.
- Regarding Groups:** After submitting your application, you can form a group with up to four students. When forming a group, you will have the option to copy your group leader's choices. If you wish to stay together with your group, make sure your choices are in the exact order of other group members. **Students forming groups should have the same priority level.** Groups with mixed priority levels are more likely to be split.

- Rank residence options in the order you want them. A list of available options for Summer 2025 can be found in [this chart](#).
- Descriptions and pictures are available on the [Student Housing website](#).
- To add a residence choice, select a **Location** and **Room Preference**, then click the **Add Preference** button.
